

pomia

Pohang Institute of Metal Industry Advancement

POMIA, an open research institute working with local small and medium businesses!

POMIA was founded in August 2007 with an aim towards leading the advancement and specialization of the metal industry, one of the major local industries, and supporting the development of high added-value products through technical innovation of small and medium businesses.

Fostering of local hidden champions through POMIA

Pohang Institute of Metal Industry Advancement

Strategy I

Reinforcing competency in research based on commercialization

Strategy II

Providing a stepping stone for growth through company support

Strategy III

Nurturing "glocal" hidden champions

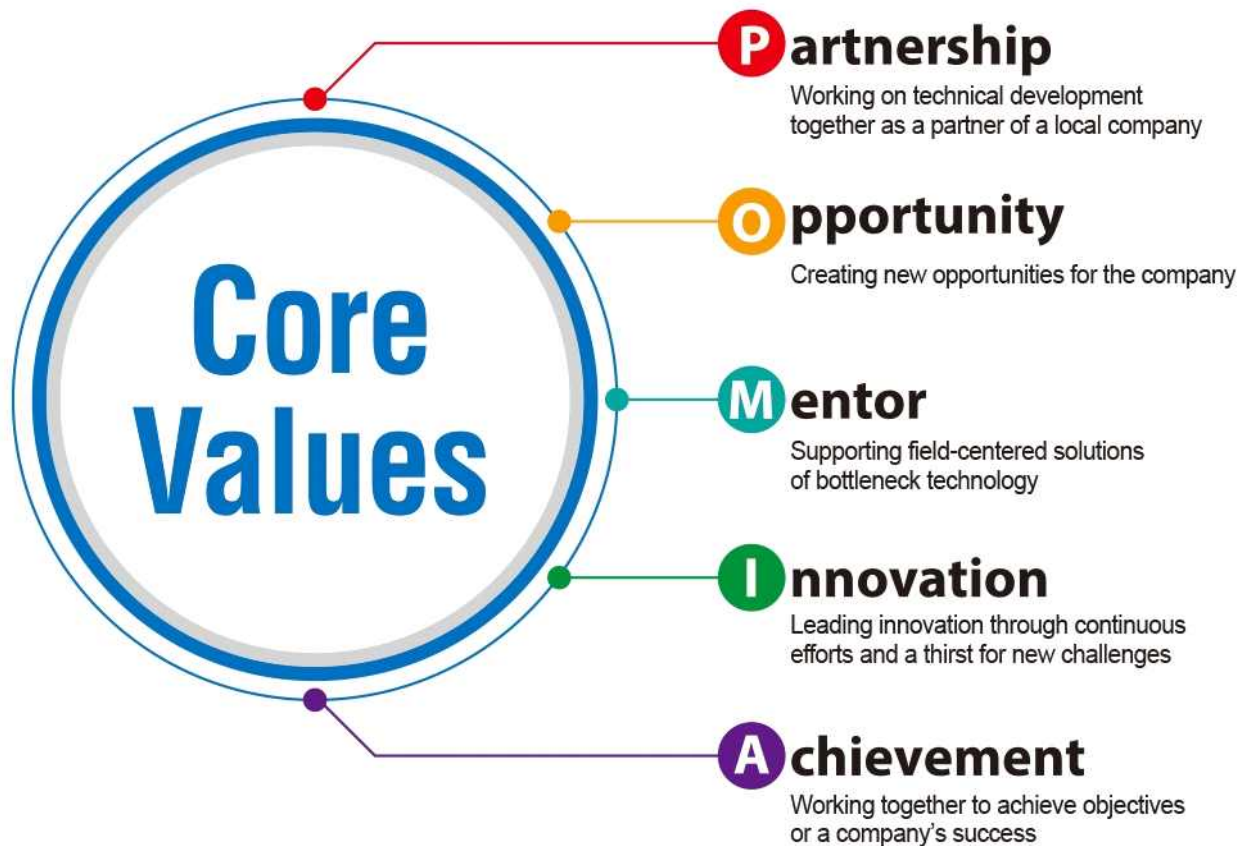

Network-type cooperation for continuous growth of small and medium businesses
